

CA BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

Author(s) Agardh, C[arl] A[dolph]

Title Beskrifning på de tångarter, som finnas vid stränderne af
Göteborgs och Bohuslän, samt om sättet och värdet af deras
användning i Landthushållningen. [[A description of the algae
which are found on the ~~Swedish~~ coast of Göteborg and Bohus Pro-
vince, with means and advantages of their use in economy]]

Abbreviated reference Göteborgs Bohus Läns Hush.-Sällsk. Handl. 1: 60-99.
Göteborgs^{Kongl.} Hush.-Sällsk. Handl. 1: 60-99. 1816
MLP 597A

Notes (X) Only pp. 63-80 are descriptions of 27 species of Fucus, written
entirely in Swedish, except for citing latin names. After a
discussion of various economic uses, an additional note treats
Zostera marina L.
