Author(s) AMICI [J.B.] *Amici, Giovanni Battista?*

Title Sur le mouvement du suc dans le chara vulgaris.

Abbreviated reference ~~Arch. Découv. Invent. Nouv. [17] pendant l'année 1820: 30-31. 1821.~~
Arch. Découv. Invent. Nouv. 1820: 30-31. 1821
MLP 226 A

(X)
Notes From 1774 M. Costi had been observing the circulation of sap in plants especially chara vulgaris. J.B. Amici had been making similar observations with the aid of a stronger microscope, which had allowed him to discover new laws about the movement of liquid in the plant and new organs which had escaped Costi's notice.

(T) French Article titled *Osservazioni sulla circolazione del succo nella chara*
~~Trans.~~ extract from ~~Memorie della Società della Scienze in Modena, tom. 18.~~
MLP 3430 *Mem. Mat. Fis. Soc. Ital. Sci. Modena, tome 18.* 181 Pt. Mem. fis. (1), 183-202. 1820
