F  
Title Sur les Montagnes Blanches du New-Hampshire.

MLP 3310

Abbreviated reference J. Voyages Découv. 15(47): 273-296. 1822 [Sept.].

Notes Drawn and translated from Bigelow's Account of the White Mountains of New Hampshire, the article contains considerable botany, specifically on pages 285-293, and includes a list of alpine plants, arranged alphabetically by Latin generic names, together with the dates of anthesis for the various species. "The list was considerably augmented thanks to the botanical zeal of my friend Mr. Boot [?]"
