

## BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

B

P  
Author(s) <sup>P</sup> BRUCE, [James]

Title Account of the Kol-Quall.

*MP 2128*  
Abbreviated reference Lit. Mag. & Brit. Rev. 8 (5): 342-343. 1792 [May] [after 1 June]

Notes Extracted from the Appendix to his Travels, etc.  
No botanical name is given for Kol-Quall. "Some botanists have supposed this to be the *Euphorbia officinarum* of Linnaeus ..." but Bruce doubted this on ~~XXXX~~ account of its flower, which was rosaceous and because it produced no gum.
