Notes Two memoirs treat of the compositae and cinarocephalae, the first deals with the compositae. Establishes the characteristics of the compositae and the reasons which decide why they could only belong to one family. Second part gives a monograph on the genus which make up the section cinarocephalae. Distinguishes 3 tribes of compositae:

Cichoraceae

Labiatae

Tubuliflorae.

The last tribe he subdivides into 3 sections:

Cinarocephalae

Corymiferae

Heliantheae.

The cinarocephalae are divided into 4:

Echinopeae, Gundeliaceae, Carduaceae, Centaureae.
