Author(s) ^P BANKS, (Sir) Joseph.

Title An account of the method of cultivating the American cranberry, Vaccinium
Macrocarpum, at Spring Grove.

MLP 1370

Abbreviated reference Trans. Hort. Soc. London 1(2): 75-78. 1812 [1808] [after 3 May]
~~also published in [see next form]~~;

Notes ^(V) Read at meeting 1 Mar. 1808.

(X) Not particularly botanical, but I include it because it is not, I think,
indigenous to this country. It had been grown at Spring Grove "for several
years". The article is in fact a "short account of the unimproved plant" -
quote from article.
