BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

B

Author(s) BELL, John

Title Observations on Guinea grass, continued.

WLP 1364

Abbreviated reference Trans. Agric. Soc. India [ed. 2], 3: 47-48. 1839.

Notes The article on Guinea grass, by Hurry, and included by Langman, is cultural. I have therefore omitted it. Bell mentions that he had received Pimento and Bahama grass packed with the Guinea grass he had received the day previously. I have included this article for that reason only. He knew that Pimento grass grew in the W, Indies, but the Bahama grass was unknown to him.
