

BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

Author(s) [JAMESON, Robert ?]

BOUSSINGAULT, J...

Title Connection between meteorology and vegetation.

MLP 510

Abbreviated reference Edinburgh New Philos. J. 22 (44): 383-384. 1837 [Apr.]

Notes In section of vol. entitled Scientific intelligence, pp. 382-406; subsection meteorology. Abstract of a note, so the editor^{*} says, addressed by Boussingault to the Académie des Sciences, entitled: "Comparative examination of the meteorological circumstances under which our common grains (the Cerealia), Turkey-wheat (Maize), and potatoes, vegetate at the Equator, and in the temperate zone" — Botanical and meteorological.

The article is not mentioned as being in Ann. Chim. Phys.
