BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

Author(s) ^P COMBETTES-CAUMON, (Vte.) de

Title Culture et rouissage du chanvre.

MLP 3942
Abbreviated reference Cultivateur (Paris) [16] [7] : 394-400. 1840 [July].

(X)
Notes Principally on the cultivation and retting of flax; pp. 394-395 give the information that the male and female flowers and seeds are not on the same plant; that the plant which produces the flowers was often, wrongly, called female, while that which carries the seeds was called the male.
