⊗ w. this section, p. 91-98, on plant poisons; (also a discussion of *Mikania guianensis* as an antidote for snakebite (p. 110-113),

↓ not mentioned by N. Santa.

Cat. Roy. Soc. 2:36 (#1)

9/1/70 LKH.

BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

Author(s) F. S. C(onstancio)

[Constancio, Francisco Solano]

B

Title Sobre os venenos, seus efeitos, antidotos, tratamento, e caracteres distintivos. [On poisons, their effects, antidotes, treatment and distinctive characters]

Abbreviated reference Ann. Sci. Soc. Portug. Paris 2: Pt. Primeira 41-129. 1818 [At.]
~~Artes Lett. 2 (1): 41-129. 1818.~~

Notes Based almost entirely on M. J. B. Orfila's Traité des poisons tirés des règnes minéral, végétal et animal, ou toxicologie générale. Plant poisons and their sources and effects are treated on pp. 91-98.

Article signed with initials only, at conclusion.

Francisco Solano Constancio, member of editorial board of the journal.

Constancio says "the following observations are suggested to me principally by reading two works of M. Orfila: Toxicologie générale and a résumé for published recently under the title of devoirs à donner aux personnes empoisonnées ou asphyxiées."
