Notes {Three articles on the book by Cunningham, Peter Miller: Two years in New South Wales ... comprising sketches ... of its topography, natural history. London, 1827.
⑧ The first article deals only with the transportation of convicts, the second does give a brief survey of natural history, mainly zoological, but some plant names are given: the author comments that ferns, nettles and grasses grow to tree height in some cases. Trees mentioned are: Casuarina, Eucalyptus, numerous species of gum and other resinous trees, the pear, Xylomelum puriforme, cherry, Exocarpus cupressiformis.
The third article is anthropological.
