

BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

Author(s) CUVIER, [Georges]. *Cuvier, Georges Léopold Christien Frédéric Dagobert (Baron)*

Title Analyse des travaux...pendant l'année 1808: anatomie végétale et botanique.

Abbreviated reference Analyse Trav. Cl. Sci. Math. Inst., Pt. Phys.

1808: 16-21. [redacted] < 2 Jan. 1809 >

MLP 1885A

Notes

(X) Résumé of work by:

Mirbel: memoirs on the germination of the gramineae; memoir on the distinctive characteristics of monocotyledonous and dicotyledonous plants; examination of the formation of wood. Note on his entry into the Académie in place of Ventenat.
Decandolle: engaged on a work on the flowers of composite plants.

Jaume Saint-Hilaire: memoir on the orobanches given to the Académie.

Dupetit-Thouars had given a memoir on the Orchidaceae which was to be published as part of a larger work on the natural families of plants.
