

BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

Author(s) CUVIER, [Georges]. *Cuvier, Georges Léopold Christien
Frédéric Dagobert (Baron)*

Title Analyse des travaux...pendant l'année 1811: physiologie végétale et botanique.

Abbreviated reference Analyse Trav. Cl. Sci. Math. Inst. Imp., Pt. Phys.
MLP 1886 1811: 17-27. [1812 or later?]

Notes (X) Résumé of the work and memoirs of the following:

Palisot de Beauvois: Experiments on the movement of sap communicated to the Classe; further experiments on the reproduction of the mosses. Discussion between P.de B. and Richard on the interior structure of seeds of certain plants.

Desvaux had presented a work on the ferns.

Leschenault de la Tour had given details of trees indigenous to Java, Borneo and Macassar.

Candolle proposed to publish the names of new or little known plants in the garden at Montpellier, giving at the same time observations on the genera to which the plants belonged; displayed cuttings to the Classe des Sciences.
