

BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

Author(s) CUVIER, [Georges]. *Cuvier, Georges Léopold Chrétien Frédéric
Dagobert (Baron)*

Title Analyse des travaux...pendant l'année 1825: anatomie et physiologie végétales.

Abbreviated reference

^{Trav.}
Analyse_A Acad. Roy. Sci., Pt. Phys. 1825: 12-15. [1826^x]
MLP 1889 A

Notes (X) Résumé of work done by:

Dutrochet: solution to the problem of the loss of pith in branches and shoots.
Raspail: in a large work on the gramineae he had extended the theory that the parts
of a plant being essentially of the same nature, could change into one another.
