Rev. Encycl. [sér. 2], 33(98): 606-607. 1827 [Feb.]

MLP 1257 A

Notes

Foundation of the first Society named after Linnaeus. The works of Linnaeus inspired J.E. Smith with the idea of forming such a Society in 1788, to encourage the study of natural history and above all that section of it with which Linnaeus was concerned. The Society first came together in 1802.
