Title De l'action de la lumière sur les plantes, et celle des plantes sur l'atmosphère.

Abbreviated reference Arch. Découv. Invent. Nouv. [27] ¹⁸³⁵ ... pendant l'année 1835: 65-67. 1836.

Arch. Découv. Invent. Nouv. 1835: 65-67. 1836

MLP 226 A

Notes (X) Experiments to ascertain the effects of light on plants, and the effects of plants on the atmosphere. The following plants were used:
Brassica oleracea, salicornia herbacea, fucus digitatus, tussilago hybrida, cochlearia armoracia, mentha viridis, rheum rhaponticum, allium ursinum, and several species of gramineae.
His conclusions on these points.
