Title Lange vedligeholdet spirekraft. [[Long ^{preserved} delayed powers of germination]]

Abbreviated reference ~~Nord. Dansk Ugeskr. 7⁽¹⁷⁶⁾ 319-320. 1835~~ [July]

~~MLP 3182~~

MLP 3182A Dansk Ugeskr. 7(176): 319-320. 1835 [July]

Notes { Translated from the note in Nouv. Ann. Voyages Sci. Géogr. for February 1835, which was taken from Bulletin médical de Bordeaux. [?]
[The Danish is ambiguous in expressing which was extracted from which - Sm. indexer] Report concerns the finding of viable seeds of Centaurea cyanus, Trifolium minimum and Heliotropium europæum in Monzie Saint-Martin, in Dordogne.

⑦ Swedish translation of the note from an anonymous article titled: *Longue durée de la faculté de germination* in MLP 3531 Nouv. Ann. Voyages Sci. Géogr. 65 ([1903]): 252. 1835 [Feb.]
