Author(s) DUNAL, F. [i.e. Michel Felix]

P. Dunal, Michel Félix

Title Mémoire sur la structure, le développement et les organes générateurs d'une espèce de Marsilea trouvée par M. Esprit Fabre dans les environs d'Agde.

Abbreviated reference ~~Mém. Soc. Roy. Sci. Orléans. 1: 71-82. pls 1-3. 1837. [Marsilea].~~

Mém. Soc. Roy. Sci. Orléans 1: 71-82. pls. 1-3. 1837 ~~1838~~ [1838]
MLP 933A

Notes Memoir on a species of Marsilea, found and studied by M. Esprit Fabre, the memoir being delivered to the Society by M.F. Dunal. The latter considered it a new species and proposed calling it Marsilea Fabri. Description of the plant in Latin and in French and a detailed description of the reproductive processes.

The plates are bound between duplicate page 40 and 93; they are not bound with this article, Plate 3 also relates to a later article on pages 87-91 by Dunal on the germination of Marsilea Fabri. The explanations of the plates are in footnotes to both articles by Dunal.

Editor's note: was the new species, in fact, Marsilea pubescens of Tenore? [Does this qualify for a B. Form.]
