

BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

Author(s) [Duncan, Andrew, ed.?]

Title Account of Dr. Clarke's botanical excursion to the top of the Blue Mountain Peak,
in Jamaica.

MLP 2944

ed. 2,

Abbreviated reference Med. Comment. (London) 17: 383-385. 1783

Notes "The ground and trees [were found to be] covered to a great thickness with the
mosses common in Europe.... A friend of Dr Clarke's, Mr. Alexander Roberts,, has
lately found a species of the Cinchona with racemose flowers, very similar to
these of the Cinchona Caribaea of Jaquin and Linnaeus", and the the Cinchona
Jamaicensis of Dr Wright."
