BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

Author(s) DUTROCHET, [Henri]. *Dutrochet, René Joachim Henri*
(Marquis de Néons)

Title Sur l'accroissement et la reproduction des végétaux.

Abbreviated reference Arch. Découv. Invent. Nouv. [14]... pendant l'année 1821: 57-60.
Arch. Découv. Invent. Nouv. 1821: 57-60. 1822 1822.

MLP 226A

Notes Detailed explanation of growth upwards and outwards of plants, and on the opposite direction of growth of stem and roots, formation of stalks or petioles of leaves and mentions the circulation of sap.
Author proposed to discover the origin and nature of the embryo of grain. To this end he carefully examined the ovules of several species of plants from the time they were noticeable until they reached maturity.
