

BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

112798

B

Author(s) ^P ELLIS [?]

Title Résultats des recherches sur les couleurs des plantes.

Abbreviated reference ~~Arch. Découv. Invent. Nouv. [11] pendant l'année 1818: 23-24.~~
~~1819.~~

Arch. Découv. Invent. Nouv. 1818: 23-24. 1819

MLP 226A

Notes Factors contributing to the production of colour in flowers.
Mentions light as being a necessary, but only contributory, agent.
More important is the relative proportion of alkalis and acids within the plant.
