BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

B

Author(s) ^P FARQUHARSON, (Rev.) James ^X {(Minister of Alford).}

Title Observations on the nature of the injury that ripening grain suffers from frost, so as to be rendered unfit for seed; pointing out a mark, by which, upon simple inspection, frosted grain may with certainty be distinguished from that which is sound: with remarks on some popular errors concerning the period of the flowering of oats, and the stage of their ripening during which they are most liable to be frosted.

Abbreviated reference Repert. Arts, Manufactures Agric. Ser. 2, 34 (199): 24-41. 1819 [Dec. 1818]
