B

Author(s) Gene[s]t, [Edmond-C. ?]

*P. Genet, -*

Title Auszüge aus Briefen: Von Herrn Genet aus Russland an Herrn la Rochefoucault.

*MP 2757*

Abbreviated reference Aufklärungen Arzneywiss. 1(1): 116-118. 1793.

Notes "Dr. Pallas has identified many of the plants collected and shipped to him by Captain Belling from his expedition to the South Seas. From the northern archipelago have come specimens of Sophora, Croton, Gnaphalium, Andromeda, Potentilla, Artemisia, Rhododendron, a black lily, whose tubers are used as nourishment by the natives, a new perennial grass with thick spike, several legumes, a species of fir and of Sorbus, and a dwarf willow."
