(Zap. Dėjanij Imp. Vol'n. Ėkon. Obsč. 1803 : 145. 1803.)

This report was briefly noted in

Here, the first item is spoken of as "kandyk", which is found
Notes growing in the area along the Enissej River, above Krasnoyarsk,

"Sarana" in the later description appears to be a species of Allium rather than Lilium, and is treated along with the Siberian garlic, but as a different species.

Apr. 72 Sm.
