

Author(s) [Gisecke, P. D.]

Title [Eine Musa spec. blüht zum erstenmal in Hamburg.]

Abbreviated reference

Museum 2602
Hamburg. Address. Courtoir. Nachr. 6(13): 103-104. 1772 [13 Febr.]

Notes

Publ. under: Hiesige Vorfälle.

Pure bot. article with history of Musa flowering in Europe, Latin diagnosis. In about 1771 G. had occupied the for a long time open position of a teacher of botany at the Johanneum in Hamburg. He was the only professional botanist of that time in Hbg. Therefore I believe that he is the author.

Made up title.
