Title Fleurs fossiles découvertes en Allemagne.

Abbreviated reference ~~Arch. Découv. Invent. Nouv. [29] pendant l'année 1837: 53-54. 1839.~~

Arch. Découv. Invent. Nouv. 1837: 53-54. 1839

MLP 226 A

Notes Five fossil flowers found in the lignite in Germany. J. Selanay  
He commented that their structure was similar to present day specimens, i.e.  
they possessed stamens and pollen. Identified as flowers from: alder, birch,  
white poplar.

[ml 3425]? Extract from: Mém. Encyclop., février 1837.
