

BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

116551

B

Author(s) GOUGH, J. P Gough, John

Title Reasons for supposing that lakes have been more numerous than they are at present.
With an attempt to assign the causes whereby they have been defaced.

MLP 2/28

Abbreviated reference Lit. Mag. & Brit. Rev. 12 (15): 333-340. 1794 [May]

Notes Extract from Mem. Lit. Soc. Manchester, n.v.n.d.
Contains a considerable amount on the functions of water plants in general, in
and around lakes.
