Title Remarks chiefly on the synonymy of several North American plants of the Orchis tribe; by ...

Abbreviated reference
MLP 97A Amer. J. Sci. Arts 38(2): 306-311. 1840

Notes Of the four species of Orchis from North America described by Linnaeus, only O. spectabilis is retained in that genus. The article deals chiefly with the synonymy of O. flava and O. psycodes L., but makes no definite statement on O. ciliaris L.
