

BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

117109

B

Author(s) [Grindel, [David Hieronymus]]

Title Sur les avantages qu'offre le café cru, pour remplacer le quinquina, considéré comme febrifuge et comme antiseptique.

Abbreviated reference Ann. Clin.  (Montpellier) 22(8): 412-422. 1810, Aug. J.
MLP 2727

Notes { Perhaps this is a translated summary of Grindel's work China-Surrogat, oder ein neues Arzneimittel (ungebrannter Caffee). ed. 2. Laipzig 1809. Here it is followed, on pp. 422-424, by an abstract on the work of Dr. André Antoine Gentil on coffee. Probably both summaries are written by the editor. }
