Title Red snow.

Abbreviated reference
MLP 97A Amer. J. Sci. Arts 10 (1): 192. 1826.

Notes In a note, extracted from "Dr. Brewster's Journal" (= Edinburgh J. Sci.) the red snow, illustrated in the plates of ~~Kfrens~~ Franz Bauer under the name of Uredo nivalis, is said by W. J. Hooker to be referred to Lyngbye's genus Palmella. Also, a communication from C. A. Agardh is cited, according to which the ~~plant~~ is Rotococcus nivalis.
