MIP 2027

Abbreviated reference Compt. ~~7~~ Rend. Trav. Soc. Agric. Lyon 1811/~~18~~12: 14-15. 1812.

Notes Deschamps had complained that his former observations on tea should have been included in the section Agriculture and not in Natural History. Had analysed the tea. Grogner mentions its cultivation by Madiot and the tasting by members at one of the meetings.

It was hoped to grow it on a large scale.

Made up title.
