Author(s) GROGNIER, L [ouis] F [urcy]

Title [Quelques observations sur les arbres utiles et exotiques, faites pendant le cours de l'année 1816-1817], par M. Madiot.

MLP 2662

Abbreviated reference Compt. Rend. Trav. Soc. Roy. Agric. Lyon 1817: 52-60. 1818.

Notes Included in research and observation made by Madiot "during the year which has just finished". Gives a list of newly arrived trees from abroad or trees with certain outstanding characteristics.

- 1) Cerasus Nicotianus - orig, Germany. with description.
- 2) Acer fraxini folia spiralis crispa - characteristics.
- 3) Celtis australis - useful characteristics.
- 4) Berberis vulgaris - considered by Yvart as the cause of disease in wheat, but otherwise by Madiot - support for his theory here.
- 5) Agave americana - flowered in Sept. 1816, at Colonges, home of Mme Gubian.
