Author(s) <sup>1</sup> GROGNIER, L [ouis] F [urcy]

Title Sur la culture des plantes oléagineuses dans le département du Rhône; par M. le chevalier de Martinel.

MLP 2662

Abbreviated reference Compt. Rend. Trav. Soc. Roy. Agric. Lyon 1819/~~18~~20: 123-126. 1820.

Notes Abstract of a paper by Martinel in which he lists the French oleaginous plants besides the olive, which could be used for nutrition, lighting and artistic purposes. The following are listed, none of which were grown then for their oil producing qualities in the Department.

Raphanus sinensis oleifer.

Cornus sanguinea

Celtis australis

Cyperus esculentus

Lepidium sativum

Carthamus tinctorius

Helianthus annuus

Sinapis alba —
