B

Author(s) GUERSENT, [L.B.?

Title { M. Guersent's Observations on the sabal of Adanson.

Abbreviated reference Ann. Bot. (König & Sims) 2, ^[17] ~~1805~~ : 199-200, ²⁰⁰ 1806, [June 1805]
MLP137

Notes Guersent had thought that the Corypha minor of Jacquin (Chaemerops acaulis of Michaux) should constitute a genus on its own. He had therefore inserted it as a genus between Euterpe Gaert. & chaemerops; characteristics given and named Sabal Adansonii.
