Author(s) [Halldorsson, Biörn] *[Halldórsson, Biörn]*

Title Korte beretninger om nogle forsøg, til landvæsenets og især
t/ hauge-dyrkningens forbedring i Island... fremsatte i et brev, aaret
 1761, med et kor/fortsættelse for de 3de efterfølgende aar.
 [A brief account of some attempts to improve the agriculture,
 and especially pomology, in Iceland ... *presented* expressed in a letter
 dated 1761, with brief sequels in the three following years]

Abbreviated reference

Kjøbenhavnske Nye Tidender Lærde Sager 1765(17): 154-^{155.}
 1765 [25 April] *X*

MLP 3330A

Notes Speaks of the introduction of various crops and vegetables in
 Iceland, among others of the potato, "here called Convolvulus
esculentus, but properly named Solanum tuberosum." An abstract
 of the account, published in the same year in Copenhagen.
 See also an unsigned note on the difference between Covolvulus
 and Solanum, Ibid. 1765(20): 224. 1765(16 May).
