Author(s) HARDOUIN, LE CLERC, FOURNEAUX et EUDES-DESLONGCHAMPS.

Title [Flore prairiale de la vallée de l'Orne, depuis le village de Louvigny, situé à une demi-lieue au sud de Caen, jusqu'à la mer.]

Abbreviated reference Mém. Soc. Linn. Normandie 7: x-xviii. 1842 ~~[?]~~

MLP 919

Notes A report made by the above botanists. The original idea (a suggestion by Edwards) was to find the effect of different kinds of vegetation on cattle. He withdrew from the project, but the above botanists continued with the work, which was then edited by Eudes-Deslongchamps. Résumé of the work pp. xi-xiv. This comes in the section of the work *Résumé des travaux*, pp. i -xxxviii. No exact date is cited. Title taken from the index.
