Author(s) ^P HAWKSHAW, John.

Title Description of five fossil trees found in the excavations for the Manchester and Bolton railway.

Abbreviated reference Proc. Geol. Soc. London 3.[I] (64): 139-140. 1842 [1839] *WLP 2099*

Notes Abstract of paper read at meeting of 5 June 1839.
The largest tree was found about two years previously. The other 4 during Spring 1839. No positive opinion was offered as to the genus to which the trees belonged.
