Title Effects of manures in the production of plants.

MLP 39/4
Abbreviated reference Ann. Agric. Other Useful Arts 33 (187): 275-301. 1799 

Notes This article is botanical from pp. 287-298 where there is a section on the parts and vessels of plants. Part 2 of the article in (190): 577-621, same vol: an essay on manures: of such ~~manures~~ as are in themselves the food of plants (i.e. natural manures), is not botanical. The 3rd part deals with chemical manures and the last deals with pond weed as a manure.
