

Author(s) ^{sp} [Hedin, Sven Anders]

Title [Additional substitutes for Cinchona bark]

Abbreviated reference Saml. Blandade Ämnen Läkare^{-v}etensk. Naturf. 2(1): 51-52.
MLP 3650A 1810^x

Notes In reviewing J. C. Renard's Die inländischen Surrogate der Chinarinde, Hedin adds the names of Liriodendrum (~~sic~~!) tulipifera reported "growing in Vienna", and of the native Pinus sylvestris, as effective substitutes for Cinchona.
