Notes {Hoare's "A practical treatise on the cultivation of the grape vine on open walls"
is announced with abstract and lengthy extracts. While the work itself does not
(X) appear to be botanical from the extracts, {The editors compare theories of various
people on the place of origin of the grape vine and how it was first brought to
Britain, pp. 48-51. {I have therefore included this article as botanical.}}

(V) Made up title.
