 as "Niels Hofmann (Bang)"; in vol. 7 the name is given as "Niels Hoffmann

 submitted to the Society in January 1817. Further evidence for this may
 be derived from Prof. H. C. Orsted's report for the year 1816-1817, op.
 cit. 1: XXVI-XXVII. Plate represents Oscillatoria chthonoplastes; figs.
 1 and 2 were borrowed from Flora danica.

Notes De usu Confervarum in oeconomia naturae, a 27-page pamphlet with one
 colored plate, was published by Niels Hofman Bang in Copenhagen in
 1818 (fide Pr. ed. 2, 4166). It is of interest that the present ar-
 ticle bears the note "Insendt i januar 1817".
