Title

Flora TauricoCaucasica ...auctore L. B. Fred. Marschall a Bieberstein.
[A review]

Abbreviated reference

J. Udenl. Litt. ⁽¹²⁾ 2: 422-426. 1810 [Aug. / Sept.]
WLP 3309A

Notes

"In finding rye in a native state in the [Trans]Caucasian desertland along the Caspian, as well as in the district of Theodosia and near the Volga, Marschall von Bieberstein has contributed valuable data for the historian and botanist, in proof of the unchanging nature of plants even after centuries of cultivation."
