Author(s) THOMSON, [?].

P Thomson, Anthony Todd

Title Sur les bois fossiles de la formation du grès houiller.

Abbreviated reference

~~Arch. Découv. Invent. Nouv. [14] 1821: 12-14. 1822~~

Arch. Découv. Invent. Nouv. 1821: 12-14. 1822

MLP 226 A

Notes

Fossil tree discovered in a sandstone quarry N.W. of Glasgow, Scotland.

Body of tree composed of sandstone, the bark into coal...

Impossible to tell which species for the bark had been so covered with bitumen that distinguishing marks had been effaced, but he thought it was a beech.

[MLP 172] Transl. extract from Annals of philosophy, ~~November~~ 1820 [Nov.]
