Author(s) [TIMBS, J. Ed.]

Title Zealand and Flanders.

MLP 3081

Abbreviated reference Arcana Sci. Arts ed.2, 1828: 109. 1828.

## Notes

Indication that Zealand and Flanders had once been joined owing to the discovery of a layer of turf containing oak, alder, & other wood beneath the level of the dyke, found while extensive work was being carried out in the great basin and sluices at Torneuzen. No source
