Author(s) ~~TRISTAN, Jules.~~

P. Tristan, Jules Marie Claude (Marquis) de

B

Title Sur le genre Pinus de Linné.

Abbreviated reference

~~Arch. Découv. Invent. Nouv. [3] ... pendant l'année 1810: 18-19. 1811~~

Arch. Découv. Invent. Nouv. 1810: 18-19. 1811

MLP 226 A

Notes

Tristan comments that Linnaeus grouping of ^{Tournefort's three species} pinus, larix, abies seems to take into account the fruiting period only. From outward appearances the three groups seem very distinct. On closer examination, however he finds that each group is organized in the same way, but that each has developed differently.
