

Author(s) Troyel, Frantz Wilhelm

P Troyel, Frantz Wilhelm

Title

Om en swamp, som undertiden findes paa Saelsikken
(Helianthus annuus), og dens lighed med adskillige
planter, især rugens misfostere moderkorn eller meeldærer
kaldede samt nogle betragtninger om brand hos planterne i
almindelighed i denne anledning. [Concerning a fungus occasionally
found on Helianthus annuus and its similarity
with various plant blights, especially the rye blast so-called
and some observations on plant blights in general]
Skræver Naturhist. Selsk. 1 (2): 39-51. 1791.

Notes

Read 26 Nov. 1790. Dated 6 Nov. 1790 (at conclusion of
paper), at Anneberggaard. F. W. Troyel was inspector
at the royal estate in Od district. See also next article,
pp. 52-67, by P. E. Abilgaard.
