

BIBLIOGRAPHIA HUNTIANA / Form B — Botanical articles

Author(s) TUKE [] (Colonel).

Title [Brief account of the supposed rain of wheat.] ✓

MLP 3258

Abbreviated reference Hist. Roy. Soc. London 1: 32-33. 1756

Notes Account given at meeting of 26 June 1661. The event itself reported by Mr. Henry Puckering, happened on 30 May 1661. Tuke supposed, after research, that the "wheat" were the seeds of ivy berries.

Register Book, vol. 1, p. 49.

Made up title.
