Author(s) [J.-T. Verneur? Ed.]

P Verneur, J. T. (Ed.)

Title Nouvelle plante.

Abbreviated reference ~~J. Voyages Découv.~~ 14 (44) 388: [June] 1822

J. Voyages Découv. 14(44): 388. 1822 [June]

MLP 3310 A

Notes A root plant recently grown in England and called atschu has been brought from Colombia. It is also a native of Morocco and is called there, arack-atschan. The editor thinks it definitely Arabic origin.

NB. I can't find an anglicized form of the plant. The nearest I can get, from a Spanish dictionary, is Arachaca: an umbelliferous plant of Colombia, having an edible farinaceous root.
